- It is advisable to have established contacts with one or several affiliated labs and inquired about the possibility of doctoral training
- Applications are evaluated by the graduate school board, which issues the decision to consider or not

### French Research Ministry fellowship application

Please indicate online if you wish to apply

### To create your application and access your file any time:

Please chose a login and a password. Please do use your email address as your login. Only one file can be created per login.

### To navigate across the application pages:

- Do not use your browser tabs. Please use the Previous/Next page tabs at the bottom of each page.
- Please do not go to a previous page without validating the current page.

### To validate your application:

Please fill all mandatory information (marked by an asterisk) and confirm it on the last page.

### Ranks, marks and size of classes:

If some information about your academic diplomas, marks and ranks is not yet available, you may enter 0 (zero) as a temporary value. This allows you to go to the next step. Do not forget to put the real values as soon as you get them, so your file can be properly evaluated.
